DRAINAGE

SELF
LEVELING

ESCAPE
ASSIST

MOBILITY
UNRESTRICTED

WET/DRY INSULATION
INSULATED WHEN WET

The cold shock response is the first thing to occur after entering freezing water. An initial involuntary deep gasp is followed by massive hyperventilation that can be up to 1000% greater than normal breathing. If the rider's airway is below the waterline at this time, the rider risks drowning.

F.A.S.T.™ technology brings the rider to the surface quickly, keeping the head above water while the rider gets through the initial Cold Shock Response and can attempt to exit the water.

FXR

Cold incapacitation begins to set in during the first 10 minutes of immersion. Loss of use of fingers/arms/legs leads to swim failure, and eventually drowning, if the rider is not able to get out of the water quickly and is not wearing a floatation suit.

F.A.S.T™ Insulation retains buoyancy properties for up to 2hrs, and is strategically positioned within the suit to allow unrestricted movement, both on the sled, and getting out of the water. FXR boots are a key component to mobility, and exiting the water, due to the use of highly buoyant materials.

Each gallon of water that is trapped inside the suit is equal to an additional 10lbs of weight, which can make survival and exiting the water extremely difficult, especially on thin ice. Rapid Drain inserts in the jacket/pants allow water to drain as the rider exits the water,

reducing the weight and effort required to exit as well as reducing the risk that the ice will break through again.

Once out, F.A.S.T™ retains its thermal properties even when wet to keep body temperature from dropping.

AVAILABLE IN SELECT FXR MEN'S, WOMEN'S OUTERWEAR & ALL FXR CHILD/YOUTH OUTERWEAR

A.C.M.T.TM
ADVANCED CLIMATE MANAGEMENT TECHNOLOGY

HYDRX PROTM

HYDRX PROTM OUTER LAYER WATERPROOFING

- Durable Outer Shell with HydrX ProTM Membrane repels 99% of external moisture from entering the jacket.

HYDRX PROTM INNER LAYER WATERPROOFING

- Seam-Sealed Inner Lining with HydrX ProTM Membrane acts as a 2nd Waterproof/Breathable barrier, stopping external moisture, and creating a semi-sealed air space between the layers of the garment.

INNER MICRO-CLIMATE

- The air space between the ACMTTM Lining and the outer shell creates an Inner Micro-Climate, allowing the outer shell and inner lining to function at different temperatures.

BREATHABILITY

- The warmer temperature of the inner ACMTTM Lining allows the inner HydrX ProTM Membrane to maintain breathability.

ANTI-CONDENSATION

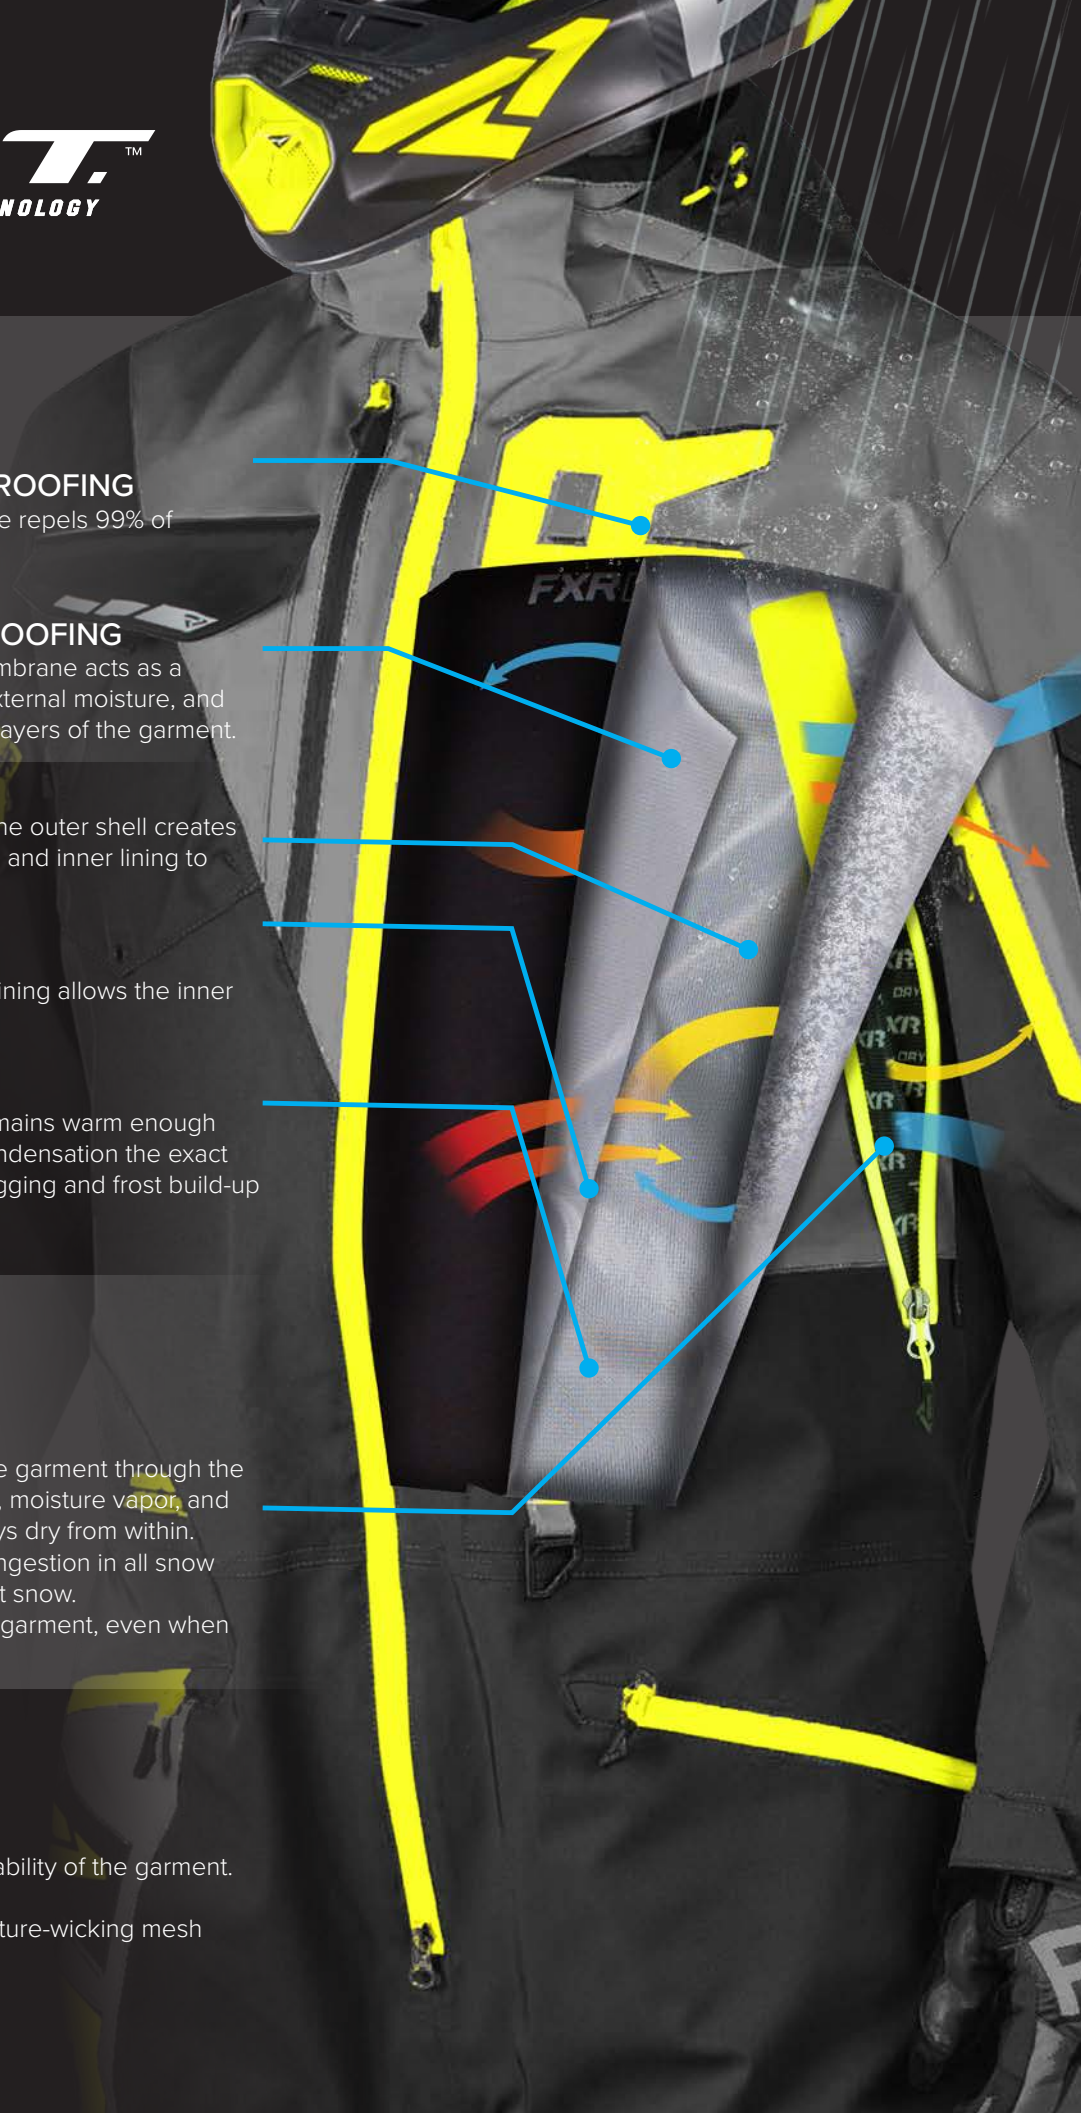

- The temperature of the inner ACMTTM Lining remains warm enough to stay above the Dewpoint, reducing inner condensation the exact same way that a dual goggle lens reduces fogging and frost build-up on the inner lens.

DryVentTM system

- Warm, moist air can now be exhausted from the garment through the Dry Vent System, effectively moving inner heat, moisture vapor, and sweat away from the body so that the rider stays dry from within.
- Seam-sealed Dry Vent Mesh eliminates snow ingestion in all snow conditions, including bottomless powder or wet snow.
- Allows air exchange between the layers of the garment, even when zips are closed.

ThermalDryTM ACTIVE LINER

- Key to the overall comfort, warmth, and breathability of the garment.
- Remains flexible at any temperature.
- Allows for maximum breathability through moisture-wicking mesh layers & Thermal Flex Insulation.

Dri-LINK™

Provides protection from the elements like a monosuit with the mobile fit of a two piece suit.

FXR's exclusive Dri-Link™ technology allows a 2pc suit to be connected at the waist with a 360° zipper system, giving it similar protective properties to a monosuit, from both cold temperatures and snow ingestion.

The Dri-Link™ acts as an expansion gusset. Allowing short or tall riders to adjust the waist height and inseam to their preference. This increases mobility and allows the rider to move their legs freely.

Dri-Link™ Systems Sold Together as Monosuit

Step 1: Untuck Dri-Link™ from pant (stow away when not in use)

Step 2: Connect zipper on Dri-Link™ to zipper rail on jacket and pull zipper around, connecting the jacket to the pant.

Step 3: Connect front zipper, fully sealing the Dri-Link™.

Dri-Link™ Systems Sold Separately

The Dri-Link is a size-specific component, if purchasing a mis-matched suit, the Dri-Link size should match the Pant size.

Step 1: Unzip Windskirt from jacket (Stow away when not in use)

Step 2: With the Dri-Link logo facing outward and upward, align the longest zipper on the Dri-Link to the left side of the jacket, connect the Dri-Link to the jacket

Step 3: Raise the flap on the waist of the pant, align the zipper to the left side of the pant, connect the zipper around the waist, being careful not to catch material in the zipper teeth

Step 4: Connect front zipper, fully sealing the Dri-Link

OMNI-STRETCH™

Omni Stretch™ shell material provides maximum stretch and mobility, while allowing the shell material to take impacts from trees and rocks, with minimal chance of snagging or tearing. Omni Stretch™ is extremely durable and provides the greatest amount of stretch in a rugged shell material in the industry. Available in select premium FXR Jackets, Pants and Monosuits.

A.C.M.T.
ADVANCED CLIMATE MANAGEMENT TECHNOLOGY

HYDRX PRO™

ACMT™ Advanced Climate Management Technology is FXR's proprietary collection of dry mesh venting, dual-layered HydrX Pro™ laminates and seam sealed linings, creating a Dual Layer Moisture Shield. This elite combination dramatically improves an outerwear garment's ability to maintain waterproofness, breathability, reduce condensation, and manage the inner micro-climate zone between the body and the garment by creating a dual moisture shield against the damp and cold. FXR's ACMT™ HydrX Pro™ combination is guaranteed to keep you dry, warm and comfortable during high intensity rides.

THERMAL FLEX™

FXR's Thermal Flex™ insulation is a powerful blend of polyester fiber fill that provides exceptional warmth and flexibility at any temperature. Unlike other fiber fills, which often become stiff in cold weather, our Thermal Flex™ insulation provides superior comfort, mobility and warmth season after season, wet or dry. Our trade-marked insulation is used in both fixed and removable liner systems, in both jackets and pants meaning all of our products come with unbeatable heat retention abilities.

DryVent™
system

The new Dry Vent™ System is a high performance venting system that maximizes ventilation in radial side body vents and the chest of FXR jackets and the inner and outer thigh of FXR pants. Seam sealed venting mesh eliminates snow ingestion in all snow conditions, including bottomless powder or wet snow. It uses the cold air entering the vents to exhaust the warm air built within the inner microclimate between your jacket/ pant and base layers. FXR's trademarked Dry Vent™ System is 99% more effective at controlling your core temperature and keeping you dry than any waterproof/ breathable system on the planet.

ThermalDry™
ACTIVE LINER

Key to the overall comfort, warmth, and breathability of the garment.
Remains flexible at any temperature.
Allows for maximum breathability through moisture-wicking mesh layers & Thermal Flex Insulation.

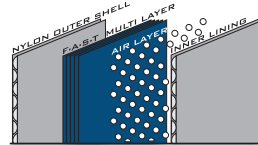

Exkin®

EXKIN® PLATINUM® is the ultimate technology for increasing warmth. Exkin® Platinum® thermal technology maintains warmth, prevents heat loss and retains insulating properties even when wet. Lightweight construction does not compromise mobility by adding bulk. Added to the back and chest of FXR products, it adds warmth to places that lose the most from being exposed to the wind.

F.A.S.T.
FLOAT ASSIST SAFETY TECH

F.A.S.T. insulation is made from an expanded, low-density polyethylene foam membrane that offers buoyancy assistance for up to two hours. The floatation membrane construction has excellent insulation properties, even when wet, which is integral should you be submerged. The F.A.S.T. membrane is also moisture resistant and lightweight, which allows the user to retain excellent warmth and mobility.

IMPORTANT – FXR jacket and pants with F.A.S.T. must be worn together as a suit to achieve buoyancy properties. Additionally, F.A.S.T. items will be rendered ineffective in adverse conditions such as strong water currents. F.A.S.T. equipped products provide exceptional mobility, warmth, style, and attention to detail while offering buoyancy properties, but are NOT COAST GUARD APPROVED.

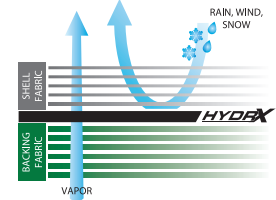

OMNI-STRETCH™

Omni Stretch™ shell material provides maximum stretch and mobility, while allowing the shell material to take impacts from trees and rocks, with minimal chance of snagging or tearing. Omni Stretch™ is extremely durable and provides the greatest amount of stretch in a rugged shell material in the industry. Available in select premium FXR Jackets, Pants and Monosuits.

HYDRX™

HydrX™ is FXR's exclusive Single Layer Moisture Shield that is applied to the outer shell of FXR products. HydrX™ is applied as a single layer laminate in mid-level FXR garments and a single layer coating in entry level FXR garments

Dri-LINK™

Provides protection from the elements like a monosuit with the higher inseam and mobile fit of a two piece. Extremely versatile for both short and tall riders alike and allows increased mobility and proper fit. When both pieces are attached, the Dri Link™ allows increased warmth for colder days while removing the Dri Link™ on warmer days provides maximum cooling and air exchange.

COLD INSULATED RATING ICONS

1 UNISULATED

MILD WEATHER / AGGRESSIVE RIDING GEAR

A value of 1 has no thermal insulation and is suitable for mild climates or situations where intensive perspiration occurs.

10 INSULATED

COLD WEATHER / LOW ACTIVITY RIDING GEAR

Values between 7-10 have extremely high thermal properties and are able to withstand extreme temperatures, well below -40°C/F and will keep you warm during sedentary outdoor activities.

10 INSULATED COMBO

SHELL & FIXED LINING COMBINED INSULATION RATING

If the item is a 2-in-1 or 3-in-1 (indicating it has a removable liner), both the "SHELL" and "COMBO" (combined) value of the shell and liner will be displayed.

BOOT STIFFNESS SCALE

3 STIFFNESS

FXR rates its boots for warmth and stiffness to allow riders to select the boot that most suits their riding style and preferences. A stiffness rating of 10 indicated maximum rigidity and support for aggressive riding, while a stiffness rating of 4-5 indicated more flexibility for comfort and ease of walking/casual use.

**JUSTIN
SHEAFF**

A rider on a snowmobile is shown in a dynamic, high-angle shot, navigating a snowy mountain slope. The rider is wearing a white helmet with blue-tinted goggles, a black and green snow suit with reflective patches, and blue gloves. The snowmobile is white with green and red accents. The background features a vast, snow-covered mountain range with evergreen trees under a bright sky. A diagonal line divides the image, with a red gradient overlay on the bottom right.

Serious gear for serious riders, that's what defines our Helium Pro-X jacket. Exclusively featuring our performance proven Omni-Stretch™ tri-laminate 100% seam-taped shell material, this jacket is extremely rugged and durable, while still maintaining optimal mobility. Premium components are used throughout, including HydrX Pro™ and Dry Vent™ technology, as well as a premium YKK Aquaguard® front zipper. The Helium Pro-X blurs the lines between versatility, performance, and durability. This winter, when extreme conditions bring the rest of the outdoor world to a crawl, keep riding with Helium Pro-X.

Designed for those who lead the charge, the Ranger jacket is equally ready to set fresh tracks in un-marked powder or to break trail on cold January nights and warm spring rides alike. Minimal seams reduce weight and ice buildup on the extremely mobile Omni-Stretch™ shell. Stay dry and manage body heat with our incredibly effective ACMT™ and Dry Vent™ systems as well as our removable Thermal Dry™ active liner. Adding FXR®'s optional Dri-Link™ allows the rider to connect to the pant for full mono-suit style protection, while retaining the mobility of a 2pc suit.

FXR®'s popular, high value CX jacket packs a serious punch, thanks to the inclusion of FXR®'s advanced F.A.S.T.™ technology, and Thermal Flex™ insulation that retains flexibility even in extreme cold. When the temps start to rise or your ride pace quickens, regulate your core temperature with our high-performance Dry Vent™ system with radial side body and chest vents.

FEATURES

- ACMT™ – 20,000mm/8,000g/m²
- Shell - durable, Omni-Stretch™ nylon shell with HydrX Pro™ laminate
- Seam-sealed in critical areas
- Lining - mesh/taffeta lining with fleece-lined seat
- Inner waterproof lining – fully seam-sealed hidden z-liner with HydrX Pro™ laminate & integrated venting
- FXR Dry Vent™ system - snowproof and moisture resistant inner thigh and back leg vent system
- YKK® waterproof zippers throughout
- Inner beacon pocket with tether cord and key clip in lower right pocket

- Dri-Link™ compatible
- Knee-high leg zippers with snap closure and gusset
- Front fly zipper with inner gusset
- Adjustable waist system
- Adjustable/removable suspender system with back bib
- Reflective inserts
- Retention loops for wind skirt attachment
- Reinforced leather panel at instep for heat and abrasion protection
- Perforated F.A.S.T.™ Thermal seat insert
- Padded knees with removable knee pads
- One-piece storm cuffs with front/rear boot lace retention snaps
- Back leg hem length adjusters

The Renegade SX Pro pant is engineered to tackle the additional needs and challenges that backcountry snow bikers face. Leather insteps provide grip on the bike as well as protection from burns or abrasion, while additional waterproof gussets and inserts keep you dry from engine heat and steam, as well as the additional snow roost that gathers around the seat. Adding FXR®'s optional Dri-Link™ allows the rider to connect the pant to their jacket for full mono-suit style protection, while retaining the mobility of a 2pc suit.

BROCK HOYER

ROCKSTAR

2021 SNOW

FXR's Rockstar® collection was inspired by the Action Sports and Motorsports athletes of Rockstar® Energy Drink. To become a Rockstar® athlete, a rider must be willing to hold themselves to a higher standard, refuse to settle for anything less than their best effort, never resting on their laurels and always striving to improve. It only makes sense that two companies with similar mindsets would partner together to develop a collection that represents those riders that are motivated to push their limits at any given opportunity.

It's time for you to experience the monosuit revolution with the durability and incredible value of the Recruit monosuit. Designed for active riding, the smart, yet simple design is an ideal piece to build around. Adapt to more extreme elements by simply adding one of our removable monosuit liners for added warmth or wear with a base layer for active or late season riding.

LIFESTYLE

The FXR logo is positioned in the top left corner of the page. It consists of the letters 'FXR' in a bold, white, sans-serif font. The background of the entire page is a vibrant blue sky with scattered white clouds. A large, dark blue diagonal shape cuts across the upper right portion of the image. In the lower right, a portion of a red and black snow machine is visible, with snow being blown upwards. Two children are the central focus, standing in a snowy field. The child on the left is wearing a black and pink snow suit and is laughing with their arms raised, holding a snowball. The child on the right is wearing a black and neon yellow snow suit and is also laughing with their arms raised, reaching for a snowflake. The overall mood is joyful and energetic.

YOUTH

OUTERWEAR

Don't let harsh winter conditions stand in the way of all the fun activities winter has to offer. Get outdoors with the industry's most advanced premium outerwear designed exclusively for kids. Featuring all-day warmth, rugged durability and the added security of our Float Assist Safety Technology (F.A.S.T.™) in every piece of kid's outerwear.

Size charts indicate both SIZE and corresponding PART NUMBER

Example 1:

| | | | | | | |
|----|----|----|----|-----|-----|-----|
| S | M | L | XL | 2XL | 3XL | 4XL |
| 07 | 10 | 13 | 16 | 19 | 22 | 25 |

 SIZE
Corresponding PART NUMBER

Example 2:

| | | | | | | | |
|--------|----|----|----|-----------|----|----|----|
| Sizing | | | | | | | |
| 02 | 04 | 06 | 08 | 10 | 12 | 14 | 16 |

 SIZE & PART NUMBER
are the SAME

Example 3:

| | | | | | | | | | | | |
|----|----|----|-------------|-----------|--------------|-----|---------------|-----|-----|-------------|-------------|
| S | M | L | <i>L-T*</i> | XL | <i>XL-T*</i> | 2XL | <i>2XL-T*</i> | 3XL | 4XL | <i>5XL*</i> | <i>6XL*</i> |
| 07 | 10 | 13 | <i>14</i> | <i>16</i> | <i>17</i> | 19 | <i>20</i> | 22 | 25 | <i>28</i> | <i>31</i> |

**Additional Sizes for BLACK | 15113.100*

HOW TO MEASURE

For the best results, have another person take measurements, while wearing light clothing. Tape measure should be snug, but not tight.

- | | |
|-----------------|---|
| 1. Chest | Measure under arms around fullest part of chest |
| 2. Waist | Measure around natural waist line |
| 3. Hip | Measure around fullest part of lower hip with feet together |
| 4. Inseam | Measure from crotch down inside of leg to floor (without shoes) |
| 5. Sleeve | Measure from center back of neck, across shoulder, down length of arm to wrist bone |
| 6. Gloves/Mitts | Measure from wrist to top of middle finger |
| 7. Headwears | Measured at top of head above ears and eyebrows. |

ADDITIONAL SIZES: In many FXR products, specific colourways will have additional sizes, including short and tall variations. The ADDITIONAL SIZES of these products will be italicized within the SIZING CHART with a corresponding * to indicate which colourways have ADDITIONAL SIZES.

NOTE: ALL TALL, SHORT, 2XL & UP (in Men's) and TALL,SHORT,18 & UP (in Women's) SIZES WILL INCREASE THE PRICE OF THE PRODUCT BY \$20.

HOW TO MEASURE

For the best results, have another person take measurements, while wearing light clothing. Tape measure should be snug, but not tight.

- | | |
|-----------------|---|
| 1. Chest | Measure under arms around fullest part of chest |
| 2. Waist | Measure around natural waist line |
| 3. Hip | Measure around fullest part of lower hip with feet together |
| 4. Inseam | Measure from crotch down inside of leg to floor (without shoes) |
| 5. Sleeve | Measure from center back of neck, across shoulder, down length of arm to wrist bone |
| 6. Gloves/Mitts | Measure from wrist to top of middle finger |
| 7. Headwears | Measured at top of head above ears and eyebrows. |

ADDITIONAL SIZES: In many FXR products, specific colourways will have additional sizes, including short and tall variations. The ADDITIONAL SIZES of these products will be italicized within the SIZING CHART with a corresponding * to indicate which colourways have ADDITIONAL SIZES.

NOTE: ALL TALL, SHORT, 2XL & UP (in Men's) and TALL,SHORT,18 & UP (in Women's) SIZES WILL INCREASE THE PRICE OF THE PRODUCT BY \$20.

Print page, measure the overall length to ensure the sizing is accurate.

WARRANTY

FXR is a premium apparel company and carries warranty on all FXR products. Satisfaction for every customer is the primary goal with every FXR Racing product.

FXR warrants our products to be free of defects in materials, contents and workmanship. Our products fall into two distinct warranty categories: Snow outerwear, helmets, gloves, boots, and goggles are covered under a 3-year progressive warranty* Race Division and Lifestyle collections, along with all other product not listed above, are covered for 1 year*

An FXR Return Authorization is required for all FXR returns, including warranty. Items without a return authorization will not be processed and will not be returned. For warranty service, if an exact replacement is not available, then one of equal value in the same size and color will be issued. All repaired warranty product will be covered for the remainder of the warranty period, from the original purchase date.

For all purchases of FXR product through a dealer/store, please return to the retailer with the original proof of purchase. If upon inspection by the dealer and FXR's warranty department, the warranty claim is deemed as valid, then FXR will repair, or replace the product at our discretion.

All items being sent for repair, are required to be clean before forwarding for warranty service. If the garment received by our warranty department, is not deemed as clean, then a \$25 cleaning fee will be issued and will be payable before return of the garment. Any fees incurred and not paid within 30 days of invoice will forfeit all warranty service.

FXR's warranty is not applicable if:

- Damage was the result of an accident
- Damage due to improper maintenance, or care
- Damage due to neglect, or normal wear and tear

Some examples of damage not covered by warranty are:

- Material that has been snagged, ripped, torn, punctured, abraded or burned
- Fading from sun exposure, staining, improper washing care, or failure to follow FXR's care instructions

Every product is susceptible to normal wear and tear though the lifetime of the product. The term Lifetime/Lifespan does not apply to the owner's lifetime. Our product is not meant to last the lifetime of the owner but the lifetime of the product. The lifetime of the product can be accelerated through high frequency and/or aggressive use, or through age itself, and can contribute to advancing the rate of natural breakdown of the product.

*DETAILS REGARDING THE FXR PROGRESSIVE 3 YEAR WARRANTY CAN BE FOUND ON OUR WEBSITE

2021 RACEWEAR

COVER -

ELIAS ISHOEL

RACE

2021 SNOW

FXR®'s Race Collection was developed to meet the demands of the world's fastest snowmobile racers. Our race pieces are bulletproof durable, yet lightweight and flexible, while still providing protection from the cold, the brutal roost, and the inevitable crashes. To accomplish the goal, FXR® engineered these pieces using highly durable bonded Omni-Stretch™ material, and aggressively pre-curved fit patterns, to give racers unparalleled fit and performance. Developed, proven and trusted by the best, FXR® has been on the podium in every form of snowmobile racing more than any other brand in the world.

**Additional Sizes for BLACK | 15113.100*

HOW TO MEASURE

For the best results, have another person take measurements, while wearing light clothing. Tape measure should be snug, but not tight.

- | | |
|-----------------|---|
| 1. Chest | Measure under arms around fullest part of chest |
| 2. Waist | Measure around natural waist line |
| 3. Hip | Measure around fullest part of lower hip with feet together |
| 4. Inseam | Measure from crotch down inside of leg to floor (without shoes) |
| 5. Sleeve | Measure from center back of neck, across shoulder, down length of arm to wrist bone |
| 6. Gloves/Mitts | Measure from wrist to top of middle finger |
| 7. Headwears | Measured at top of head above ears and eyebrows. |

ADDITIONAL SIZES: In many FXR products, specific colourways will have additional sizes, including short and tall variations. The ADDITIONAL SIZES of these products will be italicized within the SIZING CHART with a corresponding * to indicate which colourways have ADDITIONAL SIZES.

NOTE: ALL TALL, SHORT, 2XL & UP (in Men's) and TALL,SHORT,18 & UP (in Women's) SIZES WILL INCREASE THE PRICE OF THE PRODUCT BY \$20.

FXR

2021 EQUIPMENT

The FXR logo is positioned in the top left corner of the page. It consists of the letters 'FXR' in a bold, white, sans-serif font. The background of the entire page is a composite of images: a white and red FXR helmet with multi-colored goggles on the left, and a close-up of a red and white helmet on the right. A large, diagonal, semi-transparent grey shape separates the two helmet images.

HELMETS

2021 SNOW

Protection never looked so good or felt so comfortable. Whether you're a racer looking for the ultimate in crash protection, a backcountry rider looking for lightweight and maximum venting, or a trail/touring rider looking for a comfortable/quiet helmet that remains fog-free, FXR has you covered with our comprehensive line of helmets that sets the standard in safety, style, features, innovation, fit, performance and visibility.

6D ATR 2 ODS

OMNI-DIRECTIONAL SUSPENSION

HELMET TECHNOLOGY DESIGNED TO PROTECT YOUR BRAIN.

THE WORLDS ONLY FULL SUSPENSION HELMET TECHNOLOGY

**SIGNIFICANT REDUCTION IN CONCUSSION RISK
ACROSS THE WIDEST RANGE OF CRASH IMPACTS.**

**WHEN IT COMES TO YOUR HEAD, NOTHING IS WORTH
COMPROMISING YOUR SAFETY.**

**DON'T GET TRIPPED UP BY LOWER PRICES, INCOMPLETE
SAFETY SYSTEMS, GRAPHICS, OR OTHER SPONSORSHIPS.**

*Two Helmets in One / The Worlds Foremost Concussion & Traumatic Brain Injury Mitigation
Technology / The Only Rebuildable Helmet In the World / NFL Head Health Challenge Winner*

- Because I wanted the best possible brain injury protection for myself, my employees and our racers and ambassador athletes. As a brand deeply familiar with helmets and helmet technology, we've done our homework with several years of research.
- Our crew has ridden (and sometimes crashed) in virtually every high quality helmet system available.
- We analyzed the data and studied the science behind every new or leading technology.
- We had serious discussions with some of the best brands and leading manufactures.
- We observed an increased ratio of concussions from a few top AMA SX/MX racers when they switched away from 6D.
- We observed a decrease in concussions and brain injury from our own staff and sponsored racers in crash impacts with 6D helmets and now understand the reason -
- 6D's ODS Technology provides an additional, patented full suspension system, essentially two helmets in one, to measurably reduce impact energy transfer to your brain at every impact speed, in every impact angle, and in every crash event.

- They were the first, and have created something that is effective and meaningful. In fact, every other brand would not be chasing them if this was not the case! And this single reason is why we chose them as a partner for our customers and our friends.
- Yes, we know that you can still have a concussion with a 6D helmet, but that doesn't mean it didn't do its job! Thinking about the risks here, you would hate to be second guessing your purchase decision after a severe crash event that really tested your helmet.
- In our research, we've discovered that In fact, some brands are less than half as effective in mitigating (reducing) angular acceleration and linear impact energy as the 6D.
- From my perspective, having suffered "20+ dirt bike and snowmobile crash related concussions", I feel responsible to inform people, particularly super users who constantly put themselves at risk to do yourself and your loved ones a favor; don't take shortcuts with your helmet!

FEATURES

- Bold FXR graphics
- Removable, washable comfort liner features Genuine Dri-Lex® anti-bacterial fabric
- Emergency Quick-Release Cheek Pads
- PU-over molded EPP lined chin bar includes Sternum Pad
- Goggle band integrated shell recess at the eyepoint area improves goggle fit and seal
- Shear-Away Visor Screws designed to reduce angular acceleration potential
- Nose guard provides improved roost protection
- Titanium D-Rings
- Lightweight with improved center of gravity (+/- 1480 grams Size M)

- Exceeds DOT, ECE, ACU and ASTM Standards 3-Year Limited Warranty
- Rebuildable ODS System:
- Patented Omni-Directional Suspension® (ODS®)
- Improved ODS design mitigates Angular and Linear Accelerations
- Replaceable Inner EPS Liner
- Multi-impact EPP Outer Liner incorporates Isolation Damping Towers
- Rotational Energy Management Disks reduce Angular Acceleration
- Superior low, mid, and high-velocity impact mitigation
- Air-Gap Ventilation System with 17 Transfer Ports

SHELL:

- Optimized compliant lightweight Tri-Composite Shell provides superior energy absorption
- 3 Shell Sizes optimize the size to weight ratio
- Rear lower shell incorporates compliant zone at the cervical spine location
- Brow Rib increases shell integrity above the eyepoint
- Clavicle Cut-Away provides increased clearance
- 9 Intake Ports and 6 Exhaust Ports work in unison with the Air Gap Ventilation System
- World Wide Patents:
- United States US 8,955,169 B2
- Europe EP 2 672 853 B1
- China ZL 201280017579.1
- Patents Pending

Omni-Directional Suspension (ODS) system

Optimized Tri-Composite Shell

Free-Motion Elastomeric Isolating Dampers

THE GOLD STANDARD.

THE ORIGINAL GAME CHANGER

The 6D ATR-1 was the first motorcycle helmet ever manufactured incorporating ODS

technology that reduced both angular acceleration energy and low-threshold impact energy transfer to the brain during crash impact. The ATR-1 should be at

the top of the list for any off-road rider or enthusiast concerned about helmet safety.

FEATURES

- Patented ODS (Omni-Directional Suspension) Technology
- Shell – a proprietary blend of advanced aerospace carbon fiber, composite fiberglass, and Kevlar
- New PC Halo – Improves durability of inner EPS liner and overall performance
- Genuine CoolMax™ anti-bacterial fabric comfort liner
- Emergency release cheek pads
- Shear-away visor screws
- Roost guard
- Clavicle cut-away
- Sternum pad – provides added protection of the chin, jaw, and sternum Exceeds ECE, DOT, ASTM, AU and AC standards.
- 3-year limited warranty

- Titanium D-Rings
- Lightweight with improved center of gravity (+/- 1480 grams Size M)
- Exceeds DOT, ECE, ACU and ASTM Standards 3-Year Limited Warranty
- Rebuildable ODS System:
- Patented Omni-Directional Suspension® (ODS®)
- Improved ODS design mitigates Angular and Linear Accelerations
- Replaceable Inner EPS Liner
- Multi-impact EPP Outer Liner incorporates Isolation Damping Towers
- Rotational Energy Management Disks reduce Angular Acceleration
- Superior low, mid, and high-velocity impact mitigation
- Air-Gap Ventilation System with 17 Transfer Ports

SHELL:

- Optimized compliant lightweight Tri-Composite Shell provides superior energy absorption
- 3 Shell Sizes optimize the size to weight ratio
- Rear lower shell incorporates compliant zone at the cervical spine location
- Brow Rib increases shell integrity above the eyepoint
- Clavicle Cut-Away provides increased clearance
- 9 Intake Ports and 6 Exhaust Ports work in unison with the Air Gap Ventilation System
- World Wide Patents:
- United States US 8,955,169 B2
- Europe EP 2 672 853 B1
- China ZL 201280017579.1
- Patents Pending

GOGGLES

2021 SNOW

Clear vision is extremely important for any rider, whether seeing the perfect line, avoiding hazards, or just experiencing all the natural beauty that winter has to offer. FXR's goggle collection gives you access to the optical clarity and Anti-Fog properties of FXR's Clearidium™ single lens technology. Pre-curved polycarbonate lenses provide protection from roost, branches, or any other hazards, while offering multiple tints for different light and snow conditions. All FXR goggles are designed to seal properly with FXR helmets, and fit multiple face shapes and sizes.

2021 SNOW

No other interface is more important between man and machine than the handlebars. Which is why FXR gloves are engineered to enhance the riding experience by providing comfort and control with the proper level of warmth and grip to suit all types of riders from the mountains, to the trails, to the racetrack.

The FXR logo is positioned in the top left corner of the image. It consists of the letters 'FXR' in a bold, white, sans-serif font. The background of the entire image is a photograph of a snow-covered scene. In the foreground, a large, dark-colored backpack with bright yellow reflective strips is prominently displayed. The backpack has 'FXR' printed vertically on its side in large white letters, with a small yellow and black logo below it. The backpack is shown from a side-on perspective, highlighting its various straps, buckles, and pockets. In the background, the rear of a white snowplow or similar vehicle is visible, with its blade lowered and resting on a snow-covered ground. The scene is brightly lit, suggesting a sunny day, and the overall color palette is dominated by the white of the snow and the dark tones of the backpack and vehicle.

**Additional Sizes for BLACK | 15113.100*

HOW TO MEASURE

For the best results, have another person take measurements, while wearing light clothing. Tape measure should be snug, but not tight.

- | | |
|-----------------|---|
| 1. Chest | Measure under arms around fullest part of chest |
| 2. Waist | Measure around natural waist line |
| 3. Hip | Measure around fullest part of lower hip with feet together |
| 4. Inseam | Measure from crotch down inside of leg to floor (without shoes) |
| 5. Sleeve | Measure from center back of neck, across shoulder, down length of arm to wrist bone |
| 6. Gloves/Mitts | Measure from wrist to top of middle finger |
| 7. Headwears | Measured at top of head above ears and eyebrows. |

ADDITIONAL SIZES: In many FXR products, specific colourways will have additional sizes, including short and tall variations. The ADDITIONAL SIZES of these products will be italicized within the SIZING CHART with a corresponding * to indicate which colourways have ADDITIONAL SIZES.

NOTE: ALL TALL, SHORT, 2XL & UP (in Men's) and TALL,SHORT,18 & UP (in Women's) SIZES WILL INCREASE THE PRICE OF THE PRODUCT BY \$20.

GLOVES / MITTS

WARRANTY

FXR is a premium apparel company and carries warranty on all FXR products. Satisfaction for every customer is the primary goal with every FXR Racing product.

FXR warrants our products to be free of defects in materials, contents and workmanship. Our products fall into two distinct warranty categories: Snow outerwear, helmets, gloves, boots, and goggles are covered under a 3-year progressive warranty*. Race Division and Lifestyle collections, along with all other product not listed above, are covered for 1 year*

An FXR Return Authorization is required for all FXR returns, including warranty. Items without a return authorization will not be processed and will not be returned. For warranty service, if an exact replacement is not available, then one of equal value in the same size and color will be issued. All repaired warranty product will be covered for the remainder of the warranty period, from the original purchase date.

For all purchases of FXR product through a dealer/store, please return to the retailer with the original proof of purchase. If upon inspection by the dealer and FXR's warranty department, the warranty claim is deemed as valid, then FXR will repair, or replace the product at our discretion.

All items being sent for repair, are required to be clean before forwarding for warranty service. If the garment received by our warranty department, is not deemed as clean, then a \$25 cleaning fee will be issued and will be payable before return of the garment. Any fees incurred and not paid within 30 days of invoice will forfeit all warranty service.

FXR's warranty is not applicable if:

- Damage was the result of an accident
- Damage due to improper maintenance, or care
- Damage due to neglect, or normal wear and tear

Some examples of damage not covered by warranty are:

- Material that has been snagged, ripped, torn, punctured, abraded or burned
- Fading from sun exposure, staining, improper washing care, or failure to follow FXR's care instructions

Every product is susceptible to normal wear and tear though the lifetime of the product. The term Lifetime/Lifespan does not apply to the owner's lifetime. Our product is not meant to last the lifetime of the owner but the lifetime of the product. The lifetime of the product can be accelerated through high frequency and/or aggressive use, or through age itself, and can contribute to advancing the rate of natural breakdown of the product.

*DETAILS REGARDING THE FXR PROGRESSIVE 3 YEAR WARRANTY CAN BE FOUND ON OUR WEBSITE
